ness of air  
transport.

9. Section eighteen of the Finance Act, 1923 (which gives relief from double taxation in the case of profits arising from the business of shipping), shall apply in relation to profits or gains arising from the business of air transport as it applies in relation to profits or gains arising from the business of shipping, and accordingly the said section shall have effect as if—

- (1) in paragraph (a) of subsection (1) thereof, after the words “from the business of shipping,” there were inserted the words “or from the business of air transport”; and
- (2) after the word “ships,” in subsection (4) thereof, there were inserted the words “and the expression ‘business of air transport’ means the business carried on by an owner of aircraft.”

## PART III.

## LAND VALUE TAX.

*Charge of Tax.*

Charge of  
land value  
tax.

10. Subject to the provisions of this Part of this Act relating to exemptions, there shall, in respect of all land in Great Britain, be charged for the financial year ending the thirty-first day of March, nineteen hundred and thirty-four, and for each subsequent financial year, a tax (to be called “land value tax” and hereinafter in this Part of this Act referred to as “the tax”) at the rate of one penny for each pound of the land value of every land unit.

*Valuation.*

11.—(1) Subject to the provisions of this section, the Commissioners of Inland Revenue (in this Part of this Act referred to as “the Commissioners”) shall, as soon as may be after every valuation date, cause to be ascertained, as at that date, the land value of every land unit, that is to say, the amount which the fee simple thereof with vacant possession might have been expected to realise upon a sale in the open market on the valuation date upon the assumptions that at that date—

PART III.

Ascertain-  
ment of  
values.

(a) there were not upon or in the unit—

(i) any buildings, erections, or works, except roads, and except works executed for agricultural purposes, and except any buildings, erections, and works in so far as they are necessary for the reclamation of land or the protection thereof from flooding or for maintaining the stability of the unit;

(ii) anything growing on the unit except grass, and except any heather, gorse, sedge, or other natural growth, and, in the case of agricultural land, except also hedges and trees:

(b) the sale price had been computed without taking into account—

(i) the value of any minerals, as such, or the value of any mineral wayleaves;

(ii) the felling value of any trees;

(iii) the value of any shooting or fishing rights;

(iv) the value of any tillages or manure, or of any improvements specified in paragraphs (20) to (27) of the First Schedule to the Agricultural Holdings Act, 1923, being tillages, manure or improvements for which any sum would by law or custom be payable to an outgoing tenant:

13 & 14  
Geo. 5. c. 9.

(c) the sale, save as hereinbefore in this section expressly provided, included all property and rights which, if the unit had been conveyed at the valuation date, would, by virtue of subsection (1) of section sixty-two of the Law of Property Act, 1925, have been deemed to be

included in the conveyance there being assumed to be no contrary intention expressed in the conveyance:

- (d) the unit was free from any incumbrance (not including tithe, tithe rentcharge, or other payment in lieu of tithe) except any of the incumbrances mentioned in the First Schedule to this Act.

(2) Where at any valuation date any land unit comprises agricultural land, the Commissioners shall, in addition to ascertaining the land value of the unit, cause to be ascertained the cultivation value at that date of the agricultural land comprised therein, that is to say, what would have been the land value of the agricultural land as ascertained in accordance with the provisions of the last foregoing subsection if—

- (a) there had been a restriction imposed by law on the user of the agricultural land permanently prohibiting its use for any purposes other than agricultural purposes of the class or classes for which it was actually used at the valuation date; and
- (b) it had not been assumed that there were not upon or in the unit any agricultural cottages or agricultural buildings used solely in connection with the agricultural purposes of the class or classes aforesaid.

(3) Subject as hereinafter provided, every piece of land in separate occupation at the valuation date shall, for the purposes of this Part of this Act, be a land unit:

Provided that—

- (a) where two or more parts of a piece of land (being a piece of land in separate occupation) are at the valuation date in different ownership, every such part shall be a land unit, and any such parts shall be deemed to be in different ownership notwithstanding that they may be owned by the same person if those parts are vested in him for different estates or in different capacities:
- (b) where any building is divided horizontally and the several divisions are at the valuation

date in different separate occupations or in different ownership, none of the divisions shall be deemed to be a land unit, but the site of the building (with its curtilage) shall be a land unit, and this Part of this Act shall apply to every owner of a division as if he were an owner of that unit:

- (c) where in the case of two or more pieces of land in different separate occupations but owned by the same owner the Commissioners are of opinion that a prudent vendor would sell the pieces of land as one lot, the Commissioners may, if they think fit, treat those pieces of land as one land unit, and references in this Part of this Act to a land unit shall have effect accordingly.

(4) The valuation of a land unit under this section shall be made upon the basis that all land not comprised in the unit (including any minerals or mineral wayleaves which are excluded from the unit by reason of their being in separate occupation or ownership) and everything thereon and therein was in its actual condition at the valuation date and that all the circumstances affecting such land and everything thereon and therein (including circumstances preventing the obstruction of access of light and air to the unit) were the actual circumstances at that date:

Provided that the value of a land unit shall not be deemed to be increased by reason of any other land unit being subject to any incumbrance from which that other unit would, under subsection (1) of this section, be deemed to be free for the purposes of the valuation thereof.

(5) If the owner of a land unit furnishes to the Commissioners his estimate of the land value or of the cultivation value of the unit, the Commissioners shall consider it in making the valuation thereof.

(6) Where the Commissioners are satisfied that at any valuation date any land unit is exempt from tax under the provisions of this Part of this Act relating to exemptions, the unit shall not be valued under this Part of this Act as at that valuation date, but if tax becomes chargeable in respect of any such land before

PART III.  
—cont.

the next subsequent valuation date, the Commissioners shall cause a valuation of the unit in respect of which tax has become chargeable to be made as at the date from which the tax became chargeable, and for the purposes of any such valuation the foregoing provisions of this section shall have effect as if references to that date were therein substituted for references to the valuation date.

Recording  
and regis-  
tration of  
values.

12.—(1) The Commissioners shall keep a record and make therein, in relation to every land unit valued under this Part of this Act, entries showing—

- (a) the description of the unit;
- (b) the amount of the land value thereof;
- (c) the amount of the cultivation value of any agricultural land comprised therein.

(2) The Commissioners shall deposit at the offices of the Common Council of the City of London, and of the council of every metropolitan borough, county borough and county district a land values register being a copy of so much of the entries in the record kept under the last foregoing subsection as relates to land wholly or partly comprised in the area of the council, and the said registers shall be so deposited, in the case of those relating to the first valuation made under this Part of this Act, as soon as practicable after such date as His Majesty may by Order in Council declare to be the date at which the valuation of all land in Great Britain has been substantially completed, and in the case of the registers relating to every subsequent valuation, on or before the first day of August next after the valuation date as at which the valuation was made:

Provided that in the event of its being, in the opinion of the Commissioners, impracticable to include in a land values register the necessary entries in respect of any land unit, the register may be deposited with the omission of those entries.

(3) As respects every land values register to be deposited in accordance with the provisions of the last foregoing subsection, the Commissioners shall—

- (a) except where the entries in respect of a land unit are the same as those inserted in the register relating to the last preceding valuation, serve upon the owner of every land unit in respect of which entries are inserted or proposed to be

inserted in the register, a copy of the entries in respect of the unit; and

PART III.  
---cont.

- (b) in the case of a register relating to any valuation, after the first valuation made under this Part of this Act, publish, in the London Gazette and in at least one newspaper circulating in the area to which the register will relate, not less than one month's notice that the register is about to be deposited.

(4) Where, under the foregoing provisions of this Part of this Act, a land unit is valued as at a date other than a valuation date, or where a register is deposited with the omission of entries in respect of any land unit, the Commissioners shall, as soon as practicable, serve upon the owner of the unit a copy of the necessary entries in respect thereof, and cause the entries to be inserted in the register.

13.—(1) Where it appears to the Commissioners that on the first day of January in any year of charge any piece of land valued under this Part of this Act as a land unit has become divided into two or more parts in different ownership (not being horizontal divisions of a building), the Commissioners shall as soon as practicable cause to be substituted for the entries in respect of the former unit revised entries showing every such part as a separate land unit, and showing the land value, and cultivation value if any, shown by the entries in respect of the former unit, apportioned as at that first day of January as between the several parts thereof according to the respective values of those parts at that date, and thereupon every such part shall be deemed to be a land unit notwithstanding that it was not at the valuation date in separate occupation or different ownership.

units and  
apportion-  
ment of  
values.

(2) The Commissioners shall serve upon the owner of any such separate unit, a copy of the revised entries in respect thereof.

14.—(1) If the owner of a land unit objects to the land value or to the cultivation value shown by the entries in respect of the unit inserted or proposed to be inserted in a land values register, or to the omission from the entries of any cultivation value, then, within the period hereafter in this section limited, he may

give to the Commissioners notice in writing of his objection stating the grounds thereof, and his estimate of the land value of the unit, and of the cultivation value of any agricultural land comprised therein :

Provided that no objection to revised entries in respect of any land unit which, before the making of the revised entries, formed part of a former land unit shall be entertained under this section except upon the ground that the value or values of the former unit have been wrongly apportioned by the Commissioners as between the several parts thereof.

(2) If the owner of two or more pieces of land in different separate occupations objects to their having been treated by the Commissioners as one land unit in accordance with the provisions of this Part of this Act relating to the ascertainment of values, then, within the period hereafter in this section limited, he may give to the Commissioners notice in writing of his objection, stating the grounds thereof.

(3) No such notice of objection as aforesaid shall be of any effect unless given by the owner within forty-two days after service upon him of a copy of the entries in respect of the unit, or, where no such service is required by this Part of this Act, within sixty days after the first day of August on or before which the register is so required to be deposited, or, in either case, within such further time as the Commissioners may, on application made within the period aforesaid, allow, but upon any such objection being made to them within the period limited by this subsection, the Commissioners shall either cause the entries objected to to be amended in agreement with the objector or give notice to him of their refusal to do so :

15 & 16  
Geo. 5. c. 23. Provided that as respects a land unit which, during any part of the period of sixty days next after any such first day of August as aforesaid is vested in the Probate Judge under section nine of the Administration of Estates Act, 1925, the foregoing provisions of this subsection shall have effect as if for references therein to that period there were substituted references to the period of sixty days next after administration is granted.

(4) Within such time, not being less than forty-two days, as may be prescribed by rules made under this

section after a notice of refusal has been served upon any person under the last foregoing subsection, that person may appeal from the refusal to one of the panel of referees appointed under Part I of the Finance (1909-10) Act, 1910, and the decision of the referee shall, subject as hereinafter provided, be final :

PART III.  
---cont.

10 Edw. 7 &  
1 Geo. 5. c. 8.

Provided that immediately after the determination by the referee of an appeal under this subsection any party to the appeal may, if dissatisfied with the determination as being erroneous in point of law, declare his dissatisfaction to the referee who heard the appeal, and having done so, may, within such time as may be limited by rules of court, require the referee to state and sign a case for the opinion thereon of the High Court, or, where any party so elects and the land value of the unit in respect of which the dispute arises does not, as shown in the entries exceed five hundred pounds, of the county court for the district in which the unit or any part thereof is situate.

(5) No person other than the Commissioners and any person who is the owner of land to which the appeal relates or the personal representatives of any such person shall be entitled to be a party to any proceedings in connection with an appeal under this section with respect to any land, but all proceedings in connection with any such appeal may be commenced or continued by or against a person upon whom a notice of refusal has been served under this section or by or against his personal representatives, notwithstanding that he or they cease to be owners of the land or of any part thereof.

(6) The Reference Committees for England and Scotland constituted by section thirty-three of the Finance (1909-10) Act, 1910, shall make rules subject to the approval of the Treasury for giving effect to the provisions of this section relating to appeals to a referee, and such rules shall in particular make provision—

- (a) as to the time within which, and the manner in which, any such appeal is to be made;
- (b) as to the manner in which the referee to whom any such appeal is to be made is to be selected;
- (c) for the joinder as parties to the appeal, of the Commissioners, the appellant, and any person

PART III.  
---cont.

who before the hearing of the appeal applies to the Commissioners or to the referee to become a party to the appeal and is at the date of hearing the owner of any land to which the appeal relates;

- (d) for limiting the number of expert witnesses who may be heard to one on each side except where the referee otherwise determines;
- (e) as to the form in which any decision of the referee is to be given, and as to the amendment of any such decision in pursuance of any directions which, on appeal to any court, may be given by that court.

(7) A referee shall treat any appeal under subsection (1) of this section as an appeal both against the land value shown in the entries to which the appeal relates, and against the cultivation value (if any) shown therein, or against the omission therefrom of any cultivation value, as the case may be, and may direct the Commissioners to cause such alterations as he thinks proper to be made in the entries appealed against, whether by increase or decrease of any value shown therein, and whether in conformity with, or adverse to, the contention of any party to the appeal:

Provided that in the case of an appeal with respect to revised entries relating to any land unit which, before the making of the revised entries, formed part of a former land unit, a referee shall have power only to apportion the value or values of the former unit as between the several parts thereof.

(8) A referee may order that the costs of any appeal to him incurred by any party to the appeal be paid by any other party thereto, and any such order as to costs shall have effect as if it were an order of the High Court, save that it shall not be enforced as such except by leave of that court or of a judge thereof.

(9) The Reference Committee for England constituted by section thirty-three of the Finance (1909-10) Act, 1910, shall, in relation to the powers and duties of the Committee under this Part of this Act, consist of the persons mentioned in that section, together with the President of the Law Society.

15.—(1) The Commissioners may cause any entries inserted or proposed to be inserted in a land values register to be amended at any time before those entries cease, under the provisions of the last foregoing section and of any rules regulating appeals thereunder and proceedings in connection with such appeals, to be subject to objection and appeal, or, in the case of revised entries in respect of any part of a former land unit, at any time before the revised entries in respect of any other part of the former unit cease, under the said provisions, to be so subject.

PART III.  
—cont.  
Amendment  
and keeping  
of registers.

(2) Where the Commissioners direct any entries to be amended after service of a copy thereof or after deposit of the register (as the case may be), the Commissioners shall serve upon the owner of the land unit to which the amended entries relate (unless the amendment is made in agreement with him or pursuant to the decision of a referee or of the court) a copy of the amended entries, and the provisions of this Part of this Act as to objections and appeals from valuations shall apply accordingly as respects amended entries of which a copy is required by this subsection to be served.

(3) Every council at whose offices a land values register is deposited under this Part of this Act shall keep the register so deposited until notice is received by them from the Commissioners that it is no longer necessary to do so, and any such council shall, when required to do so by the Commissioners, make such additions thereto and amendments therein as the Commissioners direct, and shall at all reasonable times allow any person who is an owner of any land in respect of which entries are inserted in the register to inspect the register and take extracts therefrom free of charge.

16.—(1) For the purpose of the assessment of the tax, the land value and cultivation value, if any, of a land unit shall be taken to be respectively the land value and cultivation value thereof as shown by the entries in respect of that unit in force on the first day of January in the year of charge.

force for  
assessment  
of tax.

(2) Subject as hereinafter provided, any entries (including amended or revised entries) in respect of any land unit of which copies have been served in accordance with the requirements of this Part of this Act, or, where

PART III.  
—cont.

no such service is required by this Part of this Act, which are contained in the deposited register relating to the unit, shall, for the purposes of the last foregoing subsection, be in force on the first day of January in every year of charge during the valuation period in relation to which the entries are made, and notwithstanding that the copies may have been so served as aforesaid after any such first day of January shall be deemed to have been in force on that date :

Provided that, where by reason of any land unit having become divided into two or more land units revised entries are substituted for the entries in respect of the former unit, the revised entries shall not be deemed to have been in force on any first day of January before the former unit became so divided.

*Assessment, Recovery and Recoupment.*

Person on  
whom tax  
to be  
chargeable.

17. The person on whom the tax for any financial year in respect of a land unit shall be chargeable shall be the person who was the owner of that unit on the first day of January in the year of charge :

Provided that—

- (a) where tax is chargeable for any financial year in respect of the site of a building (with its curtilage) which is divided horizontally and the separate divisions of which are in different ownership, the Commissioners shall apportion the amount of the tax as at the first day of January in that year between the respective divisions of the building in the proportion which the annual values of those divisions bear to one another and the appropriate amount of tax in respect of each such division shall be chargeable on the person who was the owner thereof on the said first day of January.

For the purposes of this proviso, the expression “annual value” means the net annual value as appearing in the valuation list in force under the Rating and Valuation Act, 1925, or the Valuation (Metropolis) Act, 1869, as the case may be, on the first day of January in the financial year in question, or

where no such value appears in the said list, the net annual value as determined by the Commissioners :

PART III.  
—cont.

- (b) where, under a mortgage of the estate by reference to which the ownership of the land unit, or of such a division as aforesaid, is determined for the purposes of this Part of this Act, the mortgagee is in possession of the unit or division or the mortgagee or a receiver is in receipt of the whole of the rents and profits incident to the mortgaged estate on the first day of January in any year of charge, the tax for that year, or the apportioned part thereof (as the case may be) shall be chargeable on the mortgagee.

18.—(1) For the purposes of the charge of the tax, the land value of every land unit not being a unit in respect of which a cultivation value is shown by the entries relating thereto shall be reduced either—

Reduction  
of land  
value for  
purposes of  
assessment  
to tax.

- (a) by an amount equal to four times the annual value of the unit for income tax purposes ; or  
(b) by an amount equal to seven-eighths of the land value of the unit,

whichever is the less.

(2) For the purposes of the charge of the tax, the land value of every land unit in respect of which a cultivation value is shown by the entries relating thereto shall be reduced either—

- (a) by the amount of that cultivation value ; or  
(b) by the amount by which the land value would have been reduced under the last foregoing subsection if no cultivation value had been shown by the entries relating to the unit,

whichever is the greater.

(3) For the purposes of any assessment of land value tax the annual value of a land unit for income tax purposes shall be taken to be the annual value of the lands, tenements and hereditaments comprised in the unit which has been adopted for the purposes of income tax under Schedule A of the Income Tax Act, 1918, for the year comprising the first day of January in the year of charge to which the assessment of land value tax relates :

PART III.  
—cont.

Provided that, where the area as respects which the annual value has been so adopted as aforesaid is not co-extensive with the area of the unit, the Commissioners shall make such apportionments of annual value as may be necessary to determine the annual value of the unit, and, in the case of lands, tenements and hereditaments as respects which no such annual value has been so adopted as aforesaid, the annual value shall be taken to be of such amount as may be determined by the Commissioners to be the amount at which the annual value of the lands, tenements and hereditaments would have been assessed for the purposes of the said Schedule if they had been assessed to income tax thereunder and, in the case of lands, tenements and hereditaments comprising any minerals, if no minerals had been comprised therein.

Assessment  
and re-  
covery of  
tax.

19.—(1) The tax chargeable on any person for any financial year shall be assessed by the Commissioners on him or on his personal representatives, and, subject as hereinafter provided, an assessment expressed to be made on any person (whether alone or jointly with others) shall, in the event of his death before the date of assessment, have effect as an assessment on his personal representatives:

Provided that, where the tax was chargeable on any person as joint owner and is by virtue of any trust or agreement payable in the event of his death by the survivor or survivors of the joint owners, an assessment expressed to be made on him shall, in that event, have effect as an assessment on the survivor or survivors.

(2) An assessment may be made at any time not later than three years after the end of the year of charge to which it relates.

(3) The tax assessed shall, if assessed on or before the first day of June next after the end of the year of charge, be payable to the Commissioners on the first day of July next following and, if assessed on some date later than the said first day of June, be so payable on the expiration of one month from the date of the assessment.

(4) Any person aggrieved by any assessment to tax made upon him may within forty-two days after the date of assessment appeal against the assessment to

the High Court; or, if he so elects and the amount of the assessment does not exceed one hundred pounds, to the county court for the district in which the land unit in respect of which the assessment is made or any part of that unit is situate:

Provided that the value of the land unit in respect of which the tax was assessed shall not be called in question on an appeal under this subsection.

(5) The amount of any tax payable shall, notwithstanding any pending objection or appeal which may affect the assessment thereof, be recoverable as a debt due to His Majesty from the person on whom it is assessed.

(6) The amount of the tax assessed in respect of any land shall, as from the date on which it becomes payable, be a charge on that land, but, for the purposes of the Land Charges Act, 1925, no such charge shall be deemed to be a land charge of a class which may be registered under that Act, and for the purposes of the Land Registration Act, 1925, any such charge shall be deemed to be included among the interests specified in subsection (1) of section seventy of that Act:

15 & 16  
Geo. 5. c. 22.  
15 & 16  
Geo. 5. c. 21.

Provided that any charge imposed by this subsection shall be void as against a purchaser of the estate by reference to which the ownership of the land was determined, being a purchaser for money or money's worth claiming by virtue of any disposition made before the amount of the tax in respect of which the charge arose became payable and after the first day of January in the year of charge for which that tax is assessed.

(7) The Commissioners shall make such repayments and assessments (including additional assessments) as are necessary to give effect to the final settlement of any valuation or any apportionment of values made under the foregoing provisions of this Part of this Act, or to the final decision on any appeal.

20.—(1) Where the estate by reference to which the ownership of a land unit is determined is a term of years created by a lease at a rent, then, the person on whom the tax chargeable in respect of the unit is assessed shall, on paying the tax for any year of charge, be entitled to recover from the person who was the reversioner on the first day of January in that year a sum equal to one-twelfth of the amount of a year's

ment of tax

rent calculated at the annual rate in force under the lease or to the whole amount of the tax so paid, whichever is the less, and any sum so recoverable from any person may be deducted from the instalment of rent, if any, payable to him next after the date on which the tax is paid.

(2) Where under the last foregoing subsection or under this subsection any sum is recovered from a reversioner and the estate of the reversioner or, in the case of a reversioner being a mortgagee, the mortgaged estate, was also a term of years created by a lease at a rent, he shall be entitled to recover from the person who was the reversioner in respect of that lease on the first day of January in the year of charge a sum equal to one-twelfth of the amount of a year's rent calculated at the annual rate in force under that lease or to the whole amount of the sum so recovered, whichever is the less, and any sum recoverable under this subsection from any person may be deducted from the instalment of rent, if any, payable to him next after the date on which the first mentioned sum was recovered.

(3) The provisions of the last two foregoing subsections shall have effect notwithstanding any agreement made before the passing of this Act.

(4) In this section, the expression "reversioner" means as respects any lease, the person who would have been chargeable to the tax as the owner of the unit or as mortgagee if that lease and all under-leases had been surrendered.

(5) The provisions of this Part of this Act as to the service of copies of entries inserted, or proposed to be inserted, in a land values register on the owner of a land unit, as to objections to, and appeals from, valuations by the owner of the unit, as to the inspection and taking extracts from a land values register, and as to the service of documents, shall, as respects a land unit owned by a lessee, apply to any such reversioner as aforesaid, and accordingly references in the said provisions to an "owner" shall be deemed to include references to any such reversioner :

Provided that no such reversioner as aforesaid shall be entitled to be served with copies of any entries unless before the date of the service of copies of those entries

on the owner of the land unit, he has, by notice in writing delivered to the Commissioners required copies of all entries in respect of the unit to be served upon him.

PART III.  
—cont.

21. Where any tax assessed on a mortgagee under the foregoing provisions of this Part of this Act is paid by him or any sum is recovered from a mortgagee under the last foregoing section, the amount of the tax or sum so paid or recovered shall be a charge on the mortgaged estate as an addition to the mortgage money but with priority over all other charges on that estate and with interest at the rate of five per cent. per annum.

Tax paid by mortgagee charged on mortgaged estate.

22.—(1) Where any person other than a mortgagee, being a person on whom the tax chargeable in respect of any land unit is assessed, or from whom any sum is recovered under the provisions of this Act relating to recoupment of tax to leaseholders by lessors, or whose estate is charged under the last foregoing section, was not throughout the year of charge entitled to the absolute beneficial interest in the relevant estate, then, subject to the terms of any trust or agreement, the ultimate incidence of the tax, or of any sum so recovered or charged, shall, as between the persons interested in that estate, be regulated in like manner as if the tax had been—

Ultimate incidence of tax assessed on persons not having whole beneficial interest.

(a) where the estate is a term of years, rent accruing during the year of charge under the lease whereby the term was created:

(b) where the estate is an estate in fee simple, a perpetual rentcharge issuing out of the land and accruing during the year of charge.

For the purposes of this subsection the expression "the relevant estate" means—

(a) as respects a person on whom the tax chargeable in respect of a land unit is assessed, the estate by reference to which the ownership of the land unit is determined:

(b) as respects a person from whom any sum is recovered under the provisions of this Act relating to recoupment of tax to leaseholders by lessors, the estate by reference to which the liability to suffer recovery under the said provisions is determined:

PART III.  
—cont.

(c) as respects a person whose estate is charged under the last foregoing section, the mortgaged estate.

(2) In relation to any year of charge in which a land unit becomes, or ceases to be, exempt from tax under the provisions of this Part of this Act, this section shall have effect as if for references to the year of charge there were substituted references to that part of the year in respect of which the tax is chargeable.

(3) Where any amount paid by way of tax (either directly or by means of recovery) by any person falls, by virtue of the provisions of this section, to be borne by some other person, the person by whom that amount was paid shall be entitled to recover it from that other person.

Procedure  
as to assess-  
ment and  
collection.

23.—(1) The Commissioners may make regulations with respect to the assessment and collection of the tax, and any such regulations may in particular apply with modifications for the purposes of this Part of this Act any of the enactments relating to the assessment and collection of income tax and provide for the assessment of the tax by officers appointed by them for that purpose.
